DECK THE HALLS

FILM SETS

About The Project

CLIENT:

Motion Pictures - Deck the Halls

In 2006, the hit movie Deck the Halls starring Danny Devito and Matthew Broderick was shot on location in Vancouver, British Columbia, Canada.

The movie Deck the Halls was based on a Christmas theme, which required numerous winter scenes. As the film was being shot in the spring of 2006, the production company All Lit Up determined that it would be beneficial to enclose the two main houses where most of the filming was taking place. The night-time shots could then be taken during the day to maximize efficiencies of both the actors and film crew in addition to capturing the winter environment.

Sprung Instant Structures was called upon to provide a 130' wide x 260' long engineered structure with a peak height of 48'. The structure was assembled and crane lifted into place over two existing homes in the City of White Rock near Vancouver. The installation included a temporary anchoring system eliminating the time and cost associated with conventional concrete footings. An additional opaque black interior membrane was added to enhance the night time filming environment. Sprung Instant Structure's in-house, short-term lease program made it a cost-effective solution to capture the important scenes of the movie. Sprung structures provide a unique, innovative and reliable solution to enclose space for a multitude of film-related applications.

Why Sprung for the Film Industry

We understand the film industry is unique to other industries, and likewise faces its own unique set of challenges, from labor shortages to supply chain issues and tightening margins. When aligning with Sprung, our team of professionals can help you get back to your core business.

We provide:

- Rapid construction
- Design flexibility
- STC 48 rated wall system (Sound Transmission Class)
- Performance & durability
- Lower overall costs

With Sprung Structures, your new project can be up and running faster and more cost-effectively, designed with your specific vision and unique needs in mind.

The Sprung Difference

► SPRUNG CARES

Our teams work in some of the most vulnerable environments and harshest conditions. At Sprung, we are deeply committed to positively impacting the communities we serve, and applying our innovative ideas to help solve complex problems.

► UNMATCHED REPUTATION

Invest in the world's most reliable, versatile and technically advanced structures: Sprung has erected 12,000 structures in more than 100 countries.

► ENGINEERED FOR EXTREME CLIMATES

Sprung structures are engineered to withstand extreme weather conditions.

► IMMEDIATE DELIVERY FROM INVENTORY

Complete projects in a much shorter time frame than conventional construction.

► CUSTOMIZABLE

Customizations include performance insulation packages for superior indoor climate control, peak integrated daylight panels, doors and entryways for every application, and countless accessories.

► LIMITED FOUNDATION REQUIREMENTS

Save on foundation costs where appropriate soil conditions exist. Concrete foundations are not required for Sprung structures up to 160 ft. in width, saving time and cost for installation.

► COST-EFFECTIVE, COMPACT SHIPPING

Enjoy the convenience and cost savings of shipping up to 15,000 sq. ft. in a single, standard ISO container or flat bed truck.

About Sprung

Sprung meets rapid-response building needs in a wide range of leading businesses and organizations including the global armed forces, the natural resources industry, manufacturing, commercial gaming, education, disaster recovery, healthcare, and aviation, as well as sports and recreation. Sprung has designed and patented tensioned membrane technology that outperforms other building alternatives and offers a faster, better build. Year after year, we continue to engineer the most innovative, versatile and reliable building solutions.

Sprung has designed and patented tensioned membrane technology that outperforms other building alternatives and offers a faster, better build.

You can trust us to design and manufacture your facility with speed and quality that will exceed your expectations. Our clients demand it; our history proves it. In business since 1887, Sprung has completed over 12,000 structures in more than 100 countries.
